

HALO Expands Avnet Memec Relationship in Europe

Press Release: June 1, 2010

HALO is pleased to announce an extended distribution agreement with Avnet Memec in Europe. This expansion now includes the UK, Austria, France, Italy, Iberia, Scandinavia, Benelux, the Baltic States, Eastern Europe, Turkey and Greece.

Halo Electronics is a leading manufacturer of magnetic devices including signal transformers, filters, CMR chokes, FastJacks™ and low power DC/DC converter magnetics.

According to Jon Ellis, Vice President at Avnet Memec, Halo's products are particularly of interest for Ethernet and telecom applications.

Jeff Heaton, Vice President of Technical Marketing at Halo Electronics, Inc., indicated "We are pleased with this expanded distribution relationship as we view Avnet Memec as a premier technical distributor with a synergistic line up of communication products in Europe."
